CMP UG Challenge 2020

Join CMP UG Challenge 2020 where we find our talents!

You are about to finish your coursework and may be thinking, what next? Do you enjoy designing a system that can help the general public? Is finding a good solution or programming your passion? We have prepared some challenges for you that will test and improve your skills, allow you to develop a solution to a real-life problem, and give you a great sense of satisfaction. So why not take part in these challenges? By taking part in this challenge you will enhance your thinking and programming skills and if you submit your work to this competition, you might win some prizes and all winners will be showcased in the school TV screens.

How to start?

- Step 1: Read the brief and decide which challenge to take
- Step 2: Decide on whether to take the challenge as an individual or a team
- Step 3: Register your interest by filling in the form
- Step 4: Work on a challenge, ask questions, and get feedback if appropriate
- Step 5: Submit your solution to enter the competition (optional)

Are you ready?

Let's start – Read the brief and go!
